Friday 2nd February

Hello Families,

We hope you are well and have had a great week so far. We have had another fantastic week in school and it has been great to walk round school seeing fantastic learning and listening to pupils talking about what they have been learning. Year 7 and 8 classes have been excited to tell us about the work they have been doing in Geography about how and why our drinking water is cleaned. It was great to see their own filtering systems that they created. Also, we have seen some fantastic artwork has been produced in Upper School classes.

Yesterday afternoon, we held a practice Fire Evacuation and our pupils were fantastic. They were very mature and sensible in the way that they exited the school building and waited while all checks were completed to ensure we could re enter the school building following our procedures.

New Library

We are so excited to share photos of our brand-new library. This space is bigger than our original library and Miss Hepworth has done an amazing job to get it ready for our awesome pupils to enjoy. All pupils will continue to have a weekly session in the library where they can choose a new book and bring this home to enjoy.

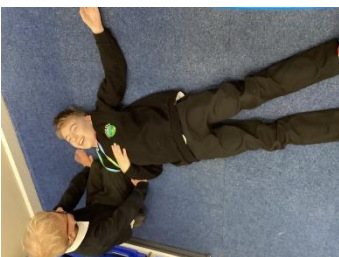

Fundraising for Prom

Kingfisher class have been busy during their Life Skills lesson this week fundraising for their Prom in June. They have baked and sold cakes which they sold to staff and this helped them to raise over £50. They tasted delicious and it was fantastic to see the team work and dedication show by Team Kingfisher. They have plans for even more fundraising activities soon too.

Life Skills – First Aid

Pupils in Year 7 and 8 this week have been learning about how they would help someone if they had a mild or severe head injury. Pupils then acted out scenarios where they decided how they would approach the situation and what they would do to help.
